

Lake Anna - Harmful Algae Bloom (HAB) Report

Issued: Wednesday 6/30/2021

Next Issue: on or about Wednesday 7/14/2021

- Harmful algae (cyanobacteria) concentrations exceed safe levels.
- Harmful algae (cyanobacteria) concentrations below safe levels.
- Lake area under HAB swimming advisory.

HELPFUL TIP:

Visit www.SwimHealthyVa.com and click on the Harmful Algae Bloom Map to review sample results near you!

Expand the map using the symbol in the upper right hand map title bar, then click on the magnifying glass. You can search my location name or address!

Samples collected on the Upper Pamunkey Branch in Lake Anna indicated a cyanobacteria bloom with cell concentrations at unsafe levels. The HAB map and this report have been updated and are posted at www.SwimHealthyVa.com. Follow-up response monitoring is anticipated for (weather permitting) on or about Thursday July 8th (next week) at 8 sites (above Rt. 208) and 1 site at the State Park beach.

When in Doubt, Stay Out!

Avoid swimming, fishing or letting your children or pets play in bodies of water that:

- Smell bad
- Look discolored
- Have foam, scum, or algal mats on the surface

BE AWARE of Harmful Algae Blooms

Water quality is tested to determine if health risks may be present.

During an algae bloom, water may have surface scum, mats, or films with red, green, white streaks, or glops.

For more information or to report an algae bloom visit
